

# Have you been diagnosed with COVID-19?

Please help us stop the progression

You could be eligible to participate in the  
government-funded clinical trial called COLCORONA

We are conducting a clinical trial to determine whether a short-term treatment with a medication reduces the risk of death and lung complications related to COVID-19.

- Involves the daily intake of study medication or placebo;
- Participation of 30 days;
- Only 2 follow-up calls or video-visits are required during follow-up;
- Be 40 and over;
- COVID-19 positive diagnosis;
- Not hospitalized;
- Forbidden to women who are pregnant, breastfeeding or who do not use contraception.

For more information or to take part in the trial,  
talk to your healthcare professional or call 1-877-536-6837  
or visit us at: [www.colcorona.org](http://www.colcorona.org)
